WHAT WE DO

1.0 CIVIL CONSTRUCTION WORKS

Our services in this area cover the following:

- ✓ **Road and Bridge Construction Works**
- ✓ **Building construction**
- ✓ **Excavation and Grading Works**
- ✓ **Locations Preparation Works**
- ✓ **Concrete Production and Placing Works**
- ✓ **Cement Control Works**

2.0 INSTRUMENTATION AND ELECTRICAL CONTROL SYSTEMS

This field covers the design, fabrications, installations and commissioning of systems. RUCOTECH INTEGRATED NIG LTD in the area of instrumentation (pneumatic/hydraulic & electronic) control systems; we have mass of experienced professionals in terms of recognized standards and safety rules and regulations as obtainable in the Oil and gas industries. Consequent to this fact, RUCOTECH INTEGRATED NIG LTD undertake the following services:

A. Design, fabrication, maintenance, installation & commissioning of control panels for:

- Wellheads
- Compressors
- Pumps
- Generators
- Emergency shutdown (ESD) systems
- Separators

- B. Establishment and implementation of preventive maintenance program:
 - Compressors, • Control panels
 - Pumps • Vessel instrumentations.
- C. Revamp operations (equipment/facility revitalization).
- D. Pressure testing of facilities/equipment
- E. Piping for all types fluid
- F. Testing, repairs and calibration
- G. Industrial control, monitoring, automation and supervisions of systems
- H. Equipment rentals
- I. Materials sales and procurement
- J. Calibration of instruments
- K. Servicing and setting of relief valve
- L. Servicing and setting of SCSSV's and SSV's
- M. Testing, repair and calibration of electrical/electronic equipment/devices
- N. Design and fabrication, maintenance and installation of electrical control panels
- O. Materials sales and procurement
- P. General alarm systems
- Q. Emergency shutdown and safety systems
- R. Design, installation and maintenance of lighting systems.
- S. Lighting protection network

4.0 PROCUREMENT

RUCOTECH INTEGRATED NIGLTD

Procurement Group is responsible for Purchasing, Inspection, Expediting and Traffic. This group issues all purchasing orders from requisition prepared by the Design and Project Engineering Group. Equipment and materials are acquired from reliable sources of supply on a worldwide basis, guaranteeing the specified quality and the committed delivery time at the lowest possible price compatible with the project requirements.

The Procurement Group's Inspectors make periodic visits to suppliers and fabrication shops to ensure compliance with quality,

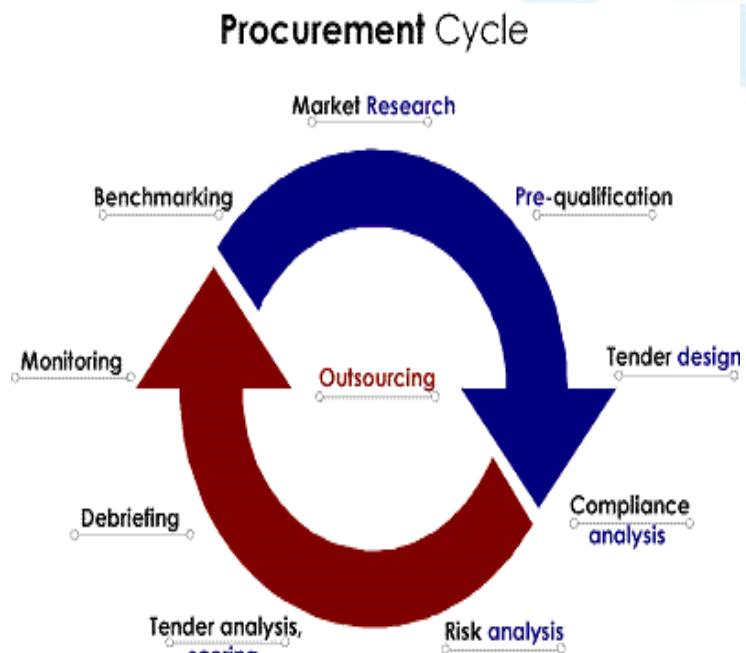

specifications, standards and drawings. Expediters monitor the adequate flow of documents such as engineering, specifications, bonds, insurance, import permits, etc., as well as the delivery of equipment and materials to the job-site on schedule.

The Traffic section establishes the most convenient routing to minimize shipping rates, transit time and cargo damage.

Regular reports are issued on the procurement phases in order to ensure their efficient coordination. The daily and permanent professional relations that RUCOTECH INTEGRATED NIG LTD maintains with vendors and suppliers of proven reliability leads to efficient procurement for the benefit of any project.

5.0 PROJECT MANAGEMENT

Projects, especially large-scale projects involving a diversity of disciplines, would hardly succeed in the absence of a clear structure and progress subject to proper management. RUCOTECH INTEGRATED NIG LTD has wide-ranging experience and absolute confidence in working with a project management team. At RUCOTECH INTEGRATED NIG LTD our project team made up of qualified and experienced persons, mobilizes the necessary capacity and skills in close co-

operation with the customer and according to the needs of the project. Far reaching co-ordination and a largely automated project administration makes it possible to link together various activities being performed by a number of different parties. Close contacts and excellent cooperation between customer and contractor and subcontractor; is the basis for high quality and ensures that the final result comes up to expectation and timely delivery

6.0 ICT CONSULTANCY

RUCOTECH INTEGRATED is a fully fledged ICT solutions provider. We offer ICT consultancy services always keeping our clients abreast with the current trends and helping in realizing all available ICT opportunities for business growth and stability.

Our approaches are business oriented and our core goal is to provide sustainable ICT solutions to the business society.

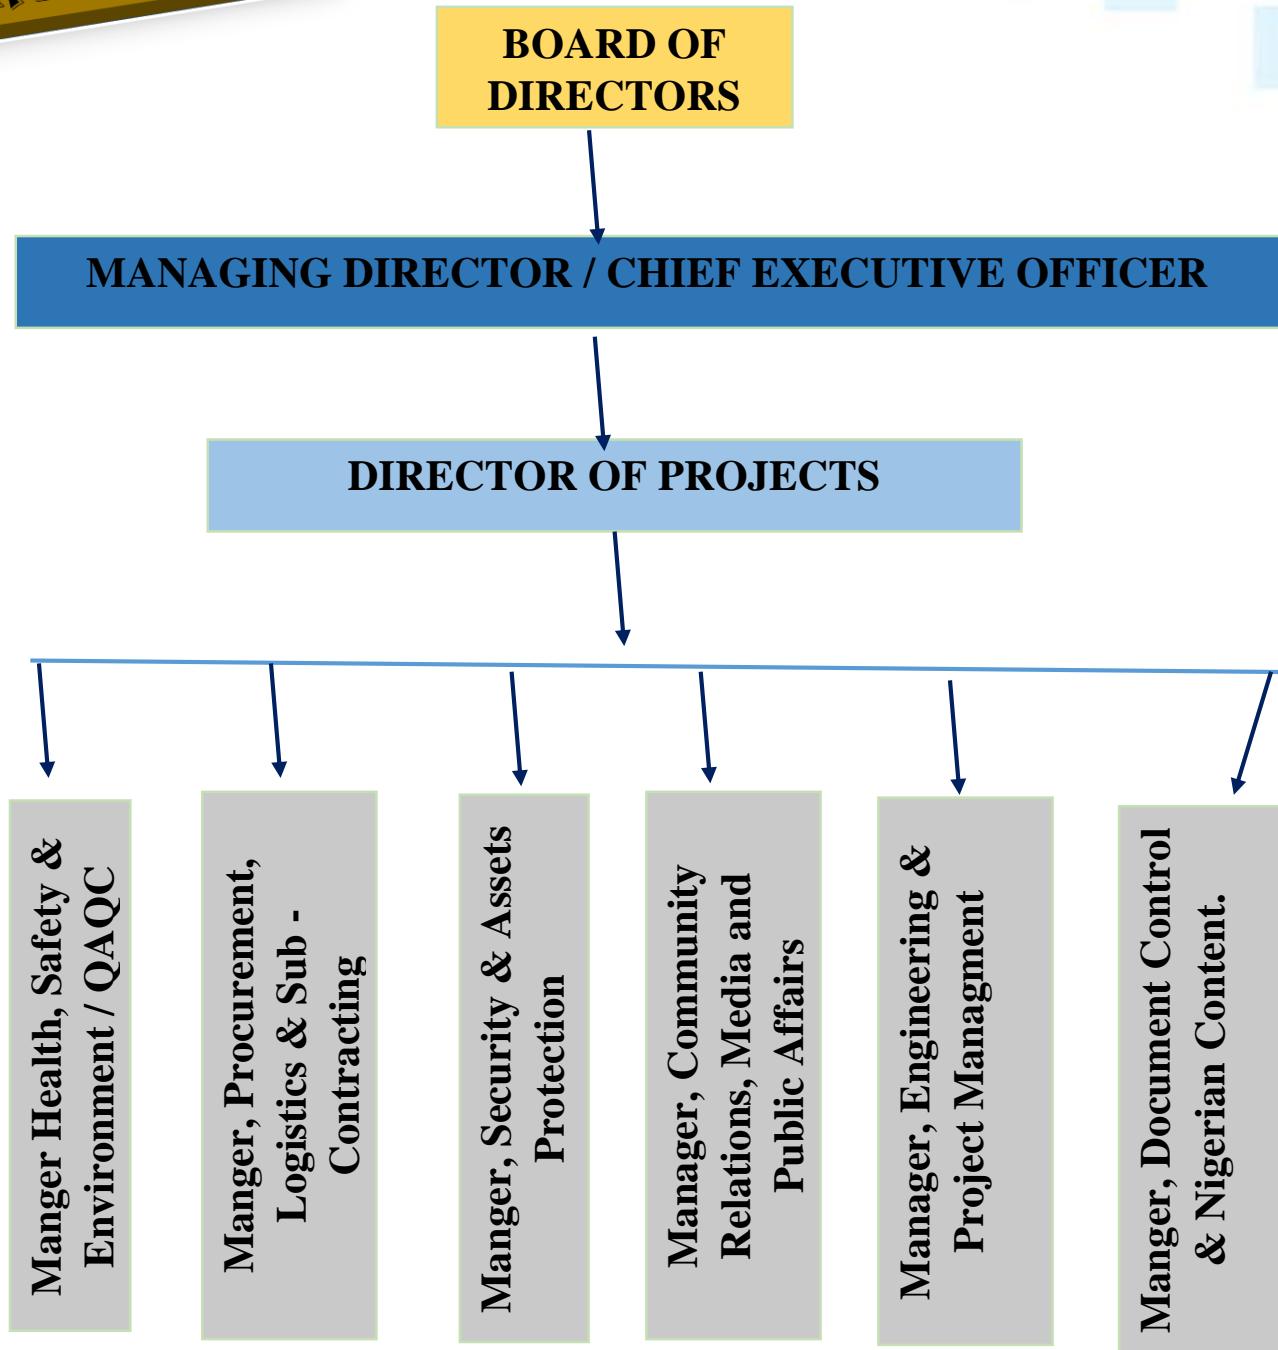

What we do

- Web Design and Development.

We are involved in designing and developing websites, Our Niche is dynamic websites using the latest content management systems.A website is your online billboard where you can reach over 70% of your prospects anytime, anywhere – use it wisely!!

- IT Support Service
- We import all king of computers, its accessories, and biometric data capturing machines.

ORGANOGRAM

OUR RESPONSIBILITIES

At RUCOTECH INTEGRATED as an accountable corporate entity, recognizes five (5) main areas of responsibilities to:

- **CLIENTS**

To win and retain our clients by evolving and providing services and innovative solutions that offer technical and commercial value aside from quality, safety and minimization of adverse environmental impacts.

- **PARTNERS**

To further the mutual interests of our joint venture partners in keeping with agreements executed with them.

- **EMPLOYEES**

We believe our employees are our greatest asset. We are committed to respect the human rights of our employees and to provide a safe and conducive environment for them to do their work. This is of great priority to both the Board of Directors and Management.

- **SOCIETY**

As a socially responsible, law-abiding corporate concern, we strive at all times to be alive to our responsibilities, to generally be at peace with our host communities in particular and society in general.

HUMAN RESOURCES

One of RUCOTECH INTEGRATED NIG LTD greatest strengths is the depth of its personnel. The Company's professional staff consists of all the Engineering disciplines and support personnel required to implement industrial projects. These people have the strength to operate independently but also benefits from RUCOTECH INTEGRATED NIG LTD philosophy of molding the various disciplines into a cohesive and effective team that can ensure the satisfactory completion of each project.

RUCOTECH INTEGRATED NIG LTD places all the Construction and Engineering services needed for a particular project under a roof, which enables our Group to improve its Turnkey capability in the areas of infrastructure and industrial project implementation.

This internal strength gives RUCOTECH INTEGRATED NIG LTD the flexibility to meet market demands by offering services either as a total package, "Turnkey", or as customized groupings of individual packages.

See below table for comprehensive list of RUCOTECH INTEGRATED NIG LTD list of key personnel;

S/N	NAMES	JOB FUNCTION	QUALIFICATION	EXPERIENCE	NATIONALITY
